

PRODUCT DATA SHEET

V-TWIN MINERAL ENGINE OIL

V-Twin Mineral Engine Oil is a value priced, multi-grade 4-stroke petroleum engine oil formulated for V-Twin engines. It is formulated with high Viscosity Index and low volatility petroleum base oils.

Applications

- ◆ Provides the best low cost lubrication performance, engine protection and reliable all-season use
- ◆ Use in all V-Twin engines where economical protection is desired

Features and Benefits

- | | |
|-----------------------------|--|
| ◆ Quality engine protection | Exclusive Bel-Ray anti-wear chemistry reduces bearing and valve train wear and keeps pistons and rings from scuffing. |
| ◆ Low volatility base oils | Minimize oil consumption. |
| ◆ Superior deposit control | Cleans deposits and reduces sludge and varnishes. It lowers temperatures and minimizes deposit formation for cleaner and cooler running engine. |
| ◆ Increased reliability | Bel-Ray's additive chemistry, high Viscosity Index, low volatility petroleum base oils and oxidation stability provide added wear protection for increased engine reliability. |
| ◆ Economical protection | Provides excellent low cost lubrication performance and engine protection. |

General Description

V-Twin Mineral Engine Oil provides shear and oxidation stability and deposit control for quality lubrication performance and engine protection. Specific Bel-Ray anti-wear chemistry means engines last longer and are more reliable with added wear protection to increase bearing life. Equally suitable for air or liquid cooled engines, **V-Twin Mineral Engine Oil** meets or exceeds V-Twin requirements and WILL NOT void warranties.

Product No.

96905

SAE Grade

20W-50
